ORGANIZED SUCCESS.

DKB is the umbrella for various proprietary brand name companies with an international focus. Our brands are classified into three divisions. All our top-quality products and services share distinctive common features: they are reliable, consumer-friendly and bring joy.

Divisions. The "Household" division combines all brands that make life more comfortable with their products. This division's products support people at home, in their everyday life and during their leisure time – without becoming ordinary.

The "Industrial" division is a group of brands with products that are aimed at B2B customers as well as industrial and commercial customers.

The "Cleaning Systems" division provides professional and methodical cleaning technology and cleaning solutions.

Brand names. Our brands are world leaders and their products impress with aesthetic design, excellent functionality and innovative technology.

Individuals. Individuals are behind the success of our brands. Our staff's knowledge and commitment, their motivation and their enthusiasm lay a solid foundation. Their passion for quality and progress unites the people at DKB and encourages them to steadily develop new innovations.
